Happenings at GMGC...

New Baby Ninja Class!

This parent and tot class is the perfect way to get your little one moving, while having fun in an organized yet playful environment! Baby Ninjas is the first step in creating confidence in young children while achieving such goals as: listening skills, fundamental movement, coordination, fine and gross motor skill development, body awareness, and our very own Ninja Zone character-building component.

Healthy Sports Snacks for Kids...

When it comes to kids' sports and nutrition, pre workout snacks should be healthy and low on sugar. Kids should be eating whole foods that help their bodies hydrate and refuel rather than sweets that give them a sugar high followed by a crash and burn. There are plenty of healthy, natural snacks that are just as satisfying as the sugar filled ones.

Here's a list of some great snack choices: 1. Fresh Fruit: watermelon, grapes, oranges, bananas, applesauce squeezers, and raisin boxes. 2. Fresh Veggies: baby carrots, snap peas, cucumbers, celery, broccoli, and radishes. 3. Crackers and grains: mini bagels, popcorn, pretzels, Trail mixes, and protein bars such as Kids RX Bars, Lara Bars, and Kind Bars are all great choices. 4. Dairy snacks such as flavored yogurt, yogurt squeezers, and string cheese.
